To amend titles XVIII and XIX of the Social Security Act to provide equal coverage of in vitro specific IgE tests and percutaneous tests for allergies under the Medicare and Medicaid programs, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

APRIL 1, 2019

Ms. CLARKE of New York (for herself and Mr. UPTON) introduced the following bill; which was referred to the Committee on Energy and Commerce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

A BILL

To amend titles XVIII and XIX of the Social Security Act to provide equal coverage of in vitro specific IgE tests and percutaneous tests for allergies under the Medicare and Medicaid programs, and for other purposes.

1 *Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Removing Barriers to
5 Allergy Diagnostic Testing Act of 2019”.

1 **SEC. 2. FINDINGS.**

2 Congress finds the following:

3 (1) Allergies, when not properly diagnosed, can-
4 not be effectively treated.

5 (2) Allergies to food, inhaled particles, or other
6 sources can cause debilitating and, in some cases,
7 fatal reactions.

8 (3) Allergies can substantially compound other
9 illnesses, including asthma, emphysema, and adult
10 obstructive pulmonary diseases, leading to social and
11 economic costs for families and our Nation's health
12 care system.

13 (4) According to clinical guidelines from the
14 National Institutes of Health and recommendations
15 from peer-reviewed literature, in vitro specific IgE
16 tests and percutaneous tests are considered equiva-
17 lent as confirmatory tests in terms of their sensi-
18 tivity and accuracy.

19 (5) Despite these recommendations, some cur-
20 rent Medicare local coverage determinations and
21 Medicaid coverage policies deny equal access to in
22 vitro specific IgE tests and percutaneous tests.

23 (6) In vitro specific IgE tests and percutaneous
24 tests must be equally accessible for clinicians and
25 patients to improve health outcomes, reduce system

1 costs, and reduce current health care disparities
2 caused by the lack of equal coverage.

3 **SEC. 3. MEDICAID COVERAGE FOR ALLERGY DIAGNOSTIC**
